

## PPG launches TESLIN label stock

*Standard and custom products meet customer demands, increase label solution options*

TESLIN® label stock is a new portfolio of durable, printable and secure label stock by PPG. Available in master and slit-roll forms, *Teslin* label stock can be ordered in standard and custom configurations to provide durable, versatile label solutions for security, shipping, chemical, medical, food and beverage, and numerous other applications.

TESLIN® label stock unites PPG's premium label face stock with high-quality adhesives and liner materials to ensure that critical printed data remains protected on shipping labels. Waterproof and resistant to chemicals, solvents, abrasion and tearing, PPG *Teslin* label stock meets or exceeds durability requirements for Globally Harmonized System ([GHS](#)) and British Standard 5609 ([BS5609](#)) compliance.

The *PPG Logo* and *Teslin* are registered trademarks of PPG Industries Ohio, Inc.
